

This BentleyCRPDataset was generated on 12<sup>th</sup> February 2021 by Gillian Bentley.

## GENERAL INFORMATION

### 1. *Title of Dataset:*

Bentley CRP Dataset

### 2. *Author Information*

#### *A. Principal Investigator Contact Information*

Name: Professor Gillian Bentley  
Institution: Durham University  
Address: Dept of Anthropology, Dawson Building, South Road, Durham DH1 3LE, England, UK  
Email: [g.r.bentley@durham.ac.uk](mailto:g.r.bentley@durham.ac.uk)

#### *B. Associate or Co-investigator Contact Information*

Name: Professor Adetayo Kasim  
Institution: Durham University  
Address: Durham Research Methods Centre, Durham, DH1 3LE  
Email: [a.s.kasim@durham.ac.uk](mailto:a.s.kasim@durham.ac.uk)

### 3. *Date of data collection:*

2013-2015 approximately.

### 4. *Geographic location of data collection <latitude, longitude, or city/region, State, Country, as appropriate>:*

England (Greater London) and cities in Northeast England

### 5. *Information about funding sources that supported the collection of the data:*

Funded by a grant from the ESRC: (ES/J008478/1).

## SHARING/ACCESS INFORMATION

### 1. *Licenses/restrictions placed on the data:*

Open access data

2. Links to publications that cite or use the data:

3. *Links to other publicly accessible locations of the data:*

N/A

4. Links/relationships to ancillary data sets:

N/A

5. *Was data derived from another source?*

no

6. Recommended citation for this dataset:

## DATA & FILE OVERVIEW

1. *File List:*

- a. CRP dataset in an Excel file with the codes for variables included.
- b. SPSS v 27 command file and output file with the regression analyses included.

2. *Relationship between files, if important:*

The SPSS file used the Excel dataset for these analyses.

3. *Additional related data collected that was not included in the current data package:*

We have additional variables not included in the dataset that are being used in other publications and can be accessed through these as they become available.

4. *Are there multiple versions of the dataset?*

no

## METHODOLOGICAL INFORMATION

1. *Description of methods used for collection/generation of data:*

The methods used are in the publication: Developmental effects on C-reactive protein (CRP) levels among migrant Bangladeshis in the UK. AUTHORS: Khurshida Begum, Gillian D Cooper, Papreen Nahar, Nasima Akhter, Adetayo Kasim, Gillian R Bentley

*2. Methods for processing the data:*

The data were extracted from a larger Excel file for purposes of depositing the data. These can be uploaded into other statistical packages

*3. Instrument- or software-specific information needed to interpret the data:*

N/A as this is an Excel database.

*4. Standards and calibration information, if appropriate:*

N/A

*5. Environmental/experimental conditions:*

N/A

*6. Describe any quality-assurance procedures performed on the data:*

The data were checked against original hard copy questionnaires that also contained the anthropometric information. They were also screened using descriptive statistical methods to check for outliers, anomalies and other problems. Any found were then checked against the original hard copy sheets. The information for the hormonal data were obtained from lab software after assay readouts and checked following entry into the database.

*7. People involved with sample collection, processing, analysis and/or submission:*

Gillian Bentley, Khurshida Begum, Gillian Cooper, Adetayo Kasim, Nasima Akhter

DATA-SPECIFIC INFORMATION FOR: BentleyCRPDatabase

*1. Number of variables:* 15

*2. Number of cases/rows:* 452

*3. Variable List:*

These are self-evident in the database and the codes are included under the column name.

*4. Missing data codes:*

Cell is left blank if there are missing data

*5. Specialized formats or other abbreviations used:*

None
