Reference code: GB-0033-DPR1/3 (part 6)

1786-1819

Extent: 4 metres

Repository: Durham University Library, Archives and Special Collections

Creator: The Spiritual Chancellors to the bishops of Durham (through their Registrars)

Contents

Original administrators' and executors' bonds, with some associated documents. See main DPR1 catalogue for further details on these records.

Arrangement

The probate bonds were stored in date order (in two sequences), along with some documents such as renunciations or proxies which were presumably filed at the same time as the bonds. The documents were numbered by the Registry, and apparently stored on spikes or strings, the modern references incorporate the Registry numbers.

Accession details

See main DPR1 catalogue.

Conditions of access

Open for consultation.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Finding aids

This list incorporates information from the North East Inheritance (NEI) database relating to these records. However, the online NEI database at <http://familyrecords.dur.ac.uk/nei/data/> will generally be found more helpful for research using the probate records, as it can be searched by person, place, occupation and document type as well as dates of probate and of documents. All the data within this catalogue is made available through the online database.

For links to the lists for other parts of the probate bonds series (DPR1/3), see the collection level description, or use these links for the previous list and the next list.

Form of citation

The form of citation should use the code GB-0033-DPR, or the collection name Durham Probate Records, followed by the full *reference code* shown within the list below.

To order items in the searchroom, use the full reference number shown. Note that in this list, the references are shown as “DPRI/3/...”, rather than “DPR1/3/...” as in the higher-level Durham Probate Records catalogues (roman numeral I rather than arabic 1): the difference is immaterial.

Bibliography

For a bibliography of editions, indexes and other works relating to the probate records generally, see the Useful texts section of the North East Inheritance project pages. This includes links to online full text, where available.
