Reference code: GB-0033-MID
Dates of creation: 1940s-2010s, with some earlier family material within MID/G
Extent: 8 metres
Repository: Durham University Library, Archives and Special Collections

Language of material: English

Contents and arrangement
Academic (and some personal) papers of moral philosopher Mary Midgley (1919-2018) and of her husband (and philosopher) Geoff Midgley (1921-1997), including drafts, working files, published articles and correspondence
See Collection Level Description for biographical information, summary of philosophical themes and acquisition details
Papers of Mary and Geoff Midgley are arranged in the following sequence, with MID/A-H being papers of Mary Midgley, and MID/J-L of Geoff Midgley.

MID/A. Philosophy files: working papers for talks, articles and subjects, including drafts, notes, cuttings, articles by other people and Mary’s letters to the press
MID/B. Newcastle University Philosophy Department: files relating to Mary’s work at the department or accrued while working there
MID/C. Published or broadcast outputs: article offprints and final drafts, texts of radio broadcasts, newspaper articles/cuttings, reviews written by Mary and some earlier (unpublished) poetry, plays and fiction
MID/D. Publication files: administrative files in connection with publications, and published reviews of Mary’s books
MID/E. Personal (academic and autobiographical): including awards of degrees and honours, interviews, references written by Mary and correspondence
MID/F. Personal (family and friends): chiefly letters (not listed but outline of contents within catalogue)
MID/G. Ancestors (family records): chiefly photographs with some letters and other papers (listed in summary only)
MID/H. Additional items acquired from other sources
MID/J. Geoff Midgley’s notes for lectures and on logic
MID/K. Geoff Midgley’s essays
MID/L. Geoff Midgley's personal items and miscellaneous notes

Mary Midgley’s papers have generally been retained within files reflecting their original storage/arrangement, with similar series kept together. The series and files have been arranged in the above order to reflect in part her own description of her working practice within The Owl of Minerva (2005) p.192-193. So notes for talks and on specific topics, with smaller interventions such as letters to the press and articles by other thinkers, are listed first (MID/A, effectively ‘philosophy in progress’), with published articles and broadcasts following in MID/C, and files relating to publication and reviews of her books in MID/D. Geoff Midgley's papers make up a third of the total collection, but have not yet been listed: the arrangement outlined above is tentative and may change.
Conditions of access
Sections MID/A-E (and MID/G by arrangement) are open for consultation. Other series are not yet catalogued.
