## Introduction

*Collection title:* Durham Probate Records: pre 1858

*Reference code:* GB-0033-DPR1

*Dates of creation:* ca.1540-January 1858

*Extent:* 225 metres

*Repository:* Durham University Library, Archives and Special Collections

*Creator:* The Spiritual Chancellors to the Bishops of Durham (through their Registrars), and the Dean and Chapter of Durham (through their Commissaries)

*Language of material:* English, with some Latin before 1750s

## Contents

Records of the pre-1858 probate jurisdiction administered through the consistory court of the Church of England diocese of Durham, and of the extra-diocesan ('peculiar') jurisdictions of the Bishop of Durham and of the Dean and Chapter of Durham within North Yorkshire. Surviving material from the Bishop of Durham's Allertonshire peculiar is within the main series of probate material for the diocese of Durham (DPR1/1-5,7-8), whereas material for the Dean and Chapter of Durham's Allerton and Allertonshire peculiar forms a separate sequence (DPR1/6, indexed in DPR1/7/7).

## Geographical scope

The pre-1858 Durham probate jurisdiction dealt with the estates of those whose property lay solely within the diocese of Durham. The geographical range of the records of this jurisdiction is extensive because throughout this period the diocese of Durham covered most of the historic counties of both Durham and Northumberland, as well as small parts of Cumberland and Yorkshire. In addition, both the Bishop of Durham, and the Dean and Chapter of Durham cathedral, had probate jurisdiction over parts of Yorkshire in and around Northallerton.

The pre-1858 Durham Probate Records therefore cover the following areas (based on pre-1974 counties):

Northumberland, except for Thockrington and Hexham/Hexhamshire (see below).

County Durham

Alston (with Garrigill and Nenthead chapelries) in Cumberland

Crayke in Yorkshire (part of Durham diocese until 1837)

Townships within the Bishop of Durham's Allertonshire peculiar in Yorkshire (see below), until 1845

Townships within the Dean and Chapter's Allerton and Allertonshire peculiar in Yorkshire (see below), until 1845

The parts of Northumberland over which the Bishops of Durham did not have probate jurisdiction were as follows. Earlier probate records for these places are in the Borthwick Institute for Archives in York.

Thockrington	Subject to the peculiar jurisdiction of a prebend of York Cathedral until ca.1846 (probate records 1846-1857 within DPR1)
Hexham and Hexhamshire	A detached part of York diocese so subject to the probate jurisdiction of the Archbishop of York, until 1837. Hexham and Hexhamshire covered the parishes and chapelries of Allendale, Allenheads or Allendale St Peter, Bingfield St Mary,

Carrshields (or High West Allen), Hexham, Ninebanks (or Low West Allen), St John Lee, St Oswald in Lee and Whitley chapel. Probate records 1837-1857 are within DPR1.

The two peculiar jurisdictions within Yorkshire covered the following parishes and chapelries. Both these peculiars were abolished in 1846, with jurisdiction transferred to the Archbishop of York. Probate records for 1846-1857 should therefore be at the Borthwick Institute for Archives in York.

Bishop of Durham	Birkby, Cowesby, Hutton Bonville, Leake, Nether Silton, North Otterington, Osmotherley and Thornton-le-Street
Dean and Chapter of Durham	Drompton, Deighton, High Worsall, Kirby Sigston, Northallerton and West Rounton

### Accession details

See collection-level description for accession details and previous custodial history.

### Arrangement

The separate series listed below reflect the original arrangement of the probate records when received from the District Probate Registry (with the exception of DPR1/8). Original wills and related documents in DPR1/1 were to some extent re-sorted after receipt (although the yearly bundles reflect the original arrangement), while the other classes are largely arranged as originally received.

### Conditions of access

Open for consultation. See notes within collection-level description for further details.

### Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail [PG.Library@durham.ac.uk](mailto:PG.Library@durham.ac.uk)) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material. See notes within collection-level description for further details.

### Finding aids

The bulk of the pre-1858 Durham Probate Records were catalogued as part of the North East Inheritance (NEI) project, 2006-2009. This catalogue is available online at <http://familyrecords.dur.ac.uk/nei/data/>, and can be searched by name, place, occupation, date and/or document type. For the convenience of family historians, a set of downloadable PDF listings in personal name order is also provided. More background information can be found on the NEI project pages.

A card index within the Palace Green library search room includes entries from the pre-1650 will registers which are not yet included within the online NEI database, though for other purposes has been superseded by it. Other finding aids for specific series are mentioned within the detailed list below.

## Form of citation

The form of citation should use the code GB-0033-DPR, or the collection name Durham Probate Records, followed by the *reference number*

To order items in the searchroom, use the collection reference code(s), derived by removing the repository code (GB-0033-), followed by the reference number. Citing the section of the finding aid is useful.

## Bibliography

A bibliography, with links to online full texts where available, is held on our North East Inheritance project pages.

## Copies

Most of these records were microfilmed by the Genealogical Society of Utah (GSU, part of the Church of Jesus Christ of Latter Day Saints, or Mormons) before their deposit in Durham University Library. Although good quality, these microfilms are impracticable to use because individual items are not numbered or labelled. Other microfilms of specific items are mentioned within this catalogue as appropriate.

Digital images of the principal series of pre-1858 probate records have also been made by the GSU and are due to be mounted online by them. Further information is available on the North East Inheritance database site.

Manuscript abstracts, transcripts and indexes are held by other local libraries and record repositories, including the following. These collections often contain details of probate documents the originals of which no longer survive.

Durham Cathedral Library: Sharp MSS (especially 31-40, with an index in 37) and Raine MS 40.

Northumberland Record Office: Raine's "Testamenta Dunelmensia", fourteen volumes of manuscript extracts from and transcripts of some Durham wills etc., compiled by Canon James Raine senior (1791-1858) and his son James.

Newcastle upon Tyne Central Library: H.M. Wood's manuscript transcript of Raine's "Testamenta Dunelmensia" in three volumes with an index, 1925.

Newcastle upon Tyne Central Library: J.J. Howe's transcripts, six volumes of manuscript extracts from wills, administration bonds and probate act books from the diocese of Durham, 1576-1735, with an index.

#### Durham Diocesan Records

Records of litigation relating to probate matters are generally found not in the Durham Probate Records but among the consistory court act books and cause papers in the Durham Diocesan Records. A typescript list of wills among the consistory court cause papers, including a few inventories, is available in the Palace Green library search room at ASCRef Z DPR.

#### Other collections

An incomplete card index to wills etc within other collections is in the Palace Green library search room.

##### Borthwick Institute for Archives, University of York

Prior to 1858 probate matters concerning the estates of deceased persons holding property in more than one diocese were dealt with by either the Prerogative Court of York (PCY), if the property lay entirely within the Northern Province of the Church of England, or the Prerogative Court of Canterbury (PCC), for estates situated in the Southern Province of the Church of England or scattered throughout the country. The records of the PCY are in the Borthwick Institute for Archives.

Borthwick Institute of Historical Research, University of York: Durham University Library holds a bound photocopy of a manuscript "Index of York wills [in the Borthwick Institute] probably relating to Hexham & Hexhamshire [in Northumberland], 1688-1745, 1746-1799". This index and its introduction were originally prepared by the late Dr. K. Mitchell (died 1994) and the introduction was updated by the staff of the Borthwick Institute in March 1994. A microfiche copy of the index (issued in 1994) is available from the Northumberland and Durham Family History Society. (For Hexham and Hexhamshire wills see Administrative etc. history).

##### The National Archives, Kew

The records of the PCC (see above under Borthwick Institute) are in the National Archives. Durham University Library holds copies of various published indexes of PCC wills etc.

Wills from the Commonwealth period, during which ecclesiastical courts were abolished and there was briefly a centralised system of testamentary jurisdiction for the whole country under a Court of Civil Commission. There are printed indexes to Commonwealth wills in the Index Library series. Durham University Library holds a typescript index of Commonwealth wills for Northumberland and Co. Durham, 1649-1660, compiled in 1909 for J.W. Robinson by Mrs. Trentham, with additions by R.H. Leighton.

##### Cumbria Record Office

Howard of Naworth Papers, volume 44/16 (temporary DUL reference) contains copies of "manorial wills" for Cumberland, c.1839-1866. These are copies of wills proved in various registries which contain references to properties within the Howard manors, chiefly in the Barony of Gilsland.

## Original wills and associated documents

DPR1/1 1540-1857

Original wills, filed by year of probate (using mainly old-style years pre-1752). Within each year the wills are arranged according to the surname of the testator. Filed with the wills, in cases where they survive, are inventories of the deceased person's goods (until about the 1720s only), and executors' accounts (mainly for the 16th century, in some other cases accounts are written at the end of the inventory). Other miscellaneous documents such as renunciations or commissions etc are also occasionally found with the wills, although many such documents are stored with the executors' bonds within DPR1/3 below.

In addition to the wills proved in Durham, this series includes any inventories or accounts that survive, where these were originally associated with administration bonds (for those who died intestate). In these cases, the administration bonds themselves were filed in a separate sequence, now under DPR1/3 below.

*Other catalogues:* The wills, inventories and other documents within this series are listed within separate online files as follows (based on the dates of probate or administration), though for most purposes a search of the North East Inheritance database will be more helpful.

## Will registers

DPR1/2 1527-1858 (mainly 1550s-1858 with gaps, especially during 17th century)  
 Volumes (except as stated), containing registered copies of wills proved in the diocese of Durham. In addition to copies of wills the registers up to the early 17th century also contain copies of some inventories, and also grants of administration. Earlier registers each cover a span of years but from the mid-1820s there is generally one register per year. The date spans refer to the date, or assumed date, of the grants of probate and administration for each deceased person whose documents are transcribed into the register, rather than to the date of the creation of the original documents themselves. There are indications that the registers were occasionally compiled some months or even years after probate or administration had been granted. Within each register the contents are usually arranged chronologically according to the date of probate of the will. A record's presence in a particular register can usually be taken as a guide to a probate or administration date, and exact dates can often be found in surviving probate act books (DPR1/4 below). The registers include copies of some wills etc of which the originals no longer survive.

*Language:* Mainly English, with some Latin up to 1730s

6 metres

*Other catalogues:* Many probate registers have been indexed by names of testators, either by contemporary ecclesiastical court officers or by their civil probate court successors for business purposes. All the entries within the registers are included within the North East Inheritance database online, excepting entries from DPR1/2/1-7 (to 1613) which were excluded from the initial database but should be added during 2011/12. A card index within the Palace Green library search room includes entries within these early registers.

Detailed lists of the contents of the registers can be found in the following catalogues

Durham will registers 1-29

Durham will registers 30-49

Durham will registers 50-63

though for most purposes a search of the North East Inheritance database will prove more useful.

Not all the volumes are numbered on their spines. The remaining volumes were numbered in 2003, prior to their digitisation by the Genealogical Society of Utah (GSU).

DPR1/2/1 1526/7-1578

When this volume was foliated the numbers 35-36, 222 and 254 were not used. Folio 206 is a stub. Microfilm available for consultation or copying (ref 5TC 106, positive in Palace Green library search room)

Previously mis-numbered with the series of act books under the reference DPR1/4/5. Microfilm available for consultation or copying (ref 5TC 107, positive in Palace Green library search room)

DPR1/2/8 1665-1670

Indexed at ff.233-235. When this volume was foliated the number 148 was not used.

DPR1/2/9 1670-1675

Indexed at ff. i - iii. Wrongly labelled 1668-1684 on spine.

DPR1/2/10 1707-1708

Indexed at ff. i - xx (booklet in pocket inside front cover) and at ff. xxi - xxii. The index is foliated and the volume paginated.

DPR1/2/11 1724-1725

Pagination starts at 142 (presumably continued from that of a previous volume, which no longer survives), and continues to 400, with numbers 212, 233 and 277 not used. Indexed at ff. vi - xi (damaged) and (a replacement) at ff. xiii - xix.

DPR1/2/12 1725-1729

When this volume was paginated the numbers 341-390 were repeated by mistake following on from the original p.390 (second sequence now 341 bis - 390 bis), and numbers 188, 191-199, 277, 291-299, 344-353 (first sequence), 366 (first sequence), 477 not used. Indexed at pp.622-628.

## DPR1/2/13 1729-1735

Indexed at pp. 875-894. There is another index at pp. 895-896, some of which is a copy of parts of the above index (M - O), the rest of which (A - F) concerns 'Commandments' and does not appear to relate to this volume. When this volume was paginated the numbers 81, 101, 560-599 and 769 were not used.

## DPR1/2/14 1735-1737

Modern typescript index at ff. i - v. This refers to the pencil foliation. There are also remnants of an earlier incomplete ink pagination, apparently continued from the pagination of a previous volume. Folio 59 wrongly placed in front of folio 58 during rebinding in 1975. Wrongly labelled 1735-1736 on spine.

At one point, but probably not always, the sheets in this volume were bound with those in DPR1/2/14A. The original volume was divided in two and rebound as two volumes in 1975.

## DPR1/2/14A 1737-1742

There are two sets of paginations and the older set is divided into two sequences. Modern typescript index at ff. i - xxiii, referring to the old paginations. For the year 1737 the pages were formerly numbered and dated with the year in ink (1737 pages 1-148), to which page numbers have now been added in pencil (pages 1-148). For the subsequent years 1738-1742 the pages were formerly numbered and dated with the year in ink (1738 etc. pages 1-495), to which page numbers have now been added in pencil (pages 149-642). In the old pagination, page 515 is repeated once. In the new pagination page 180 occurs three times.

## DPR1/2/14B 1734 and 1750-1752

Indexed at pp. iii - iv, covering 1734 entries only. When this volume was paginated the number 124 was not used.

*Related material elsewhere:* Three bifolia apparently from a register covering 1744 are kept within the series of original wills and inventories, where they are listed as DPR/I/1/1744/S17/1-6.

For registered copies of some wills made or proved in 1752 and one will made in 1757 see the final section of DDR/EJ/FAC/1/1, the register of faculties for 1767-1792 (pp. 1 rev. - 18 rev.).

## DPR1/2/14C 1759

Indexed at pp. 162-167. When this volume was paginated the numbers 155-159 were not used.

## DPR1/2/15 1760

Indexed at pp. 172-178.

## DPR1/2/16 1761

Indexed at pp. 167-170.

## DPR1/2/17 1767

In the most recent ink foliation (which was intended to correct the repetition of some numbers in the previous foliation) there is a gap (numbers 181-188 not used), but there was no gap in the previous ink foliation (present folio 180 was previous folio 175 [repeated] and present folio 189 was previous folio 176 [repeated]). This item consists of unbound folios in a slip-case.

## DPR1/2/18 1769

Indexed at ff. 130v-131v.

DPR1/2/19 1770

Modern typescript index at ff. i - vi.

DPR1/2/24 1776-1778 (surnames A-K only)

Items are arranged first by year, then within each year alphabetically by initial letter of the surname only (A-K), and then, within each initial letter, presumably chronologically. Indexed (separately for each year, arranged in the same way) at pp. 661-669. The pagination has been altered considerably in parts (in ink) but the index refers to the final ink pagination. When this volume was paginated the numbers 330-339 were not used.

This register contains copies of wills proved in sede vacante years (during the periods between the death of a bishop and the consecration of his successor). Indexed at pp.xv-xvi. The entries are arranged alphabetically only by initial letter of the surname and thereafter presumably chronologically.

DPR1/2/29 1787 (surnames L-W) and 1790 (surnames A-J)

Items are arranged first by year, then within each year alphabetically by initial letter of the surname only, and then, within each initial letter, presumably chronologically. at pp. 560-564 (with copy or draft as loose booklet, p.568-575). Pagination has been altered considerably in the latter part of the volume (in ink) but the index refers to the final ink pagination. When this volume was paginated the number 406 was not used.

DPR1/2/30 1790 (surnames K-W) and 1793 (surnames A-C)

Items are arranged first by year, then within each year alphabetically by initial letter of the surname only, and then, within each initial letter, presumably chronologically. Indexed (separately for each year, arranged in the same way) at pp. 559-563 (with copy or draft as loose booklet, p.i-vi). Pagination has been altered in the latter part of the volume (in ink) but the index refers to the final ink pagination.

DPR1/2/32 1795 (surnames J-Y) and 1797 (surnames A-D)

Items are arranged first by year, then within each year alphabetically by initial letter of the surname only, and then, within each initial letter, presumably chronologically. Not indexed. When this volume was paginated the numbers 190-199 were not used, and 337-346 were wrongly repeated between pages 346 and 347: they have been renumbered in pencil as pages 346A-346J.

DPR1/2/32A 1800 (surnames A-B)

Modern typescript index at p.i-iii.

DPR1/2/33 Jan 1821-May 1822

Apparently arranged chiefly according to date of probate. At pp. i - xxxii is a loose booklet containing (pp. i - xxii) an index to the 1822 entries in this volume only. When this volume was paginated the number 188 was not used, and numbers 411-412 were wrongly numbered 410-411: these have been renumbered in pencil as pages 411-412.

DPR1/2/34 May 1822-Dec 1823

Apparently arranged chiefly according to date of probate. Not indexed. In the original ink pagination numbers 504-505 were wrongly numbered 503-504: these have been renumbered in pencil as 504-505. DPR1/2/38 1827

Arranged alphabetically by initial letter of the surname only.

## Probate bonds

DPR1/3 1555-1556 (two only) and 1565-1858 (with gaps, especially in 16th-17th centuries)  
54 metres

The bonds for each year are in separate numerical sequences which were devised before the deposit of the material with the university; sometimes but not always these run chronologically. From 1739 onwards the bonds are divided into two numerical sequences for each year, one consisting of administration bonds (relating to the estates of intestates) and the other primarily of will bonds (relating to executorships). Filed with the will bonds are also some tuition and curation bonds (relating to the appointment of guardians for minors), and a few non-probate (chiefly sequestration) bonds.

No probate bonds survive for the following [old-style] years: 1540-1554, 1557-1564, 1567, 1569-1575, 1578-1582, 1584, 1588, 1590-1591, 1594-1596, 1600, 1606, 1609-1612, 1614-1615, 1622, 1626-1628, 1634-1635, 1646-1647, 1650-1659, 1661-1663, 1665, 1669, 1672, 1678-1679, 1682.

Only a few probate bonds survive for the following [old-style] years: 1555-1556, 1568, 1592-1593, 1597-1599, 1601-1602, 1604-1605, 1607-1608, 1613, 1617, 1620-1621, 1623, 1631-1633, 1636, 1641, 1643, 1660, 1666, 1668, 1683-1684.

*Other catalogues:* The probate bonds within this series are listed in a chronological series

1555-1675 bonds

1676-1705 bonds

1706-1725 bonds

1726-1749 bonds

1750-1785 bonds

1786-1819 bonds

1820-1839 bonds

1840-1858 bonds

though for most purposes a search of the North East Inheritance database will be more helpful. In particular, abodes of the deceased are frequently not stated within the above lists although included in the NEI database. However, the lists include entries for the various illegible fragments and the few non-probate items found within the series.

*Related material in other DUL collections:* Although most of the probate bonds from the Bishop of Durham's Allertonshire peculiar are filed in the main series of probate bonds there is also a separate small batch of such bonds, 1732-1768, among the Durham Diocesan Records at DDR/P/ALP/1. One earlier Allertonshire bond for 1555 is kept with the 1555 wills.

The non-probate material chiefly concerns sequestrations of benefice income (granted to churchwardens during vacancies). See the Durham Diocesan Records for other sequestration records, and for background information.

## Probate act books

DPR1/4 1571-1577, 1577-1587, 1598, 1599-1653, 1660-1668, 1724-1735, 1776-1778, 1780-1800 and 1809-1858

Volumes recording grants of probate and administration by the Durham ecclesiastical (consistory) court, and instance and office testamentary business, with many gaps in the series. They also contain acts of the court when sitting in various places outside the consistory court and acts commissioned by the court and enacted by surrogates. Also a box of unbound consistory court acts, dealing almost entirely with probate matters, 1850-1859. At certain periods separate probate act books were not kept; instead acts relating to testamentary matters were recorded in other volumes among the Durham Diocesan Records, chiefly in the main series of consistory court act books at DDR/EJ/CCA. *Language:* In Latin until 26 March 1733, thereafter in English

2 metres

*Other catalogues:* Many of the act books have been indexed, either by contemporary ecclesiastical court officers or by their civil probate court successors for business purposes. Additionally some typescript indexes have been created by Durham University archivists, which are kept on the search room shelves (at ASCRef Z DPR) as noted below: these all index both deceased persons and places within a single sequence. Finally the North East Inheritance (NEI) database contains some references to the probate act books, linking these acts to other probate records in the DPR1 collection, although none of the act books are comprehensively indexed within the NEI database.

*Related material in other DUL collections:* Many consistory court act books among the Durham Diocesan Records contain details of the the proving of wills similar to the information recorded in this series. In particular volumes DDR/EJ/CCA/1/16, 18 and 20, 1666-1734, relate solely to testamentary business. A consolidated list of volumes containing records of probate grants and administrations is in the Palace Green library search room at ASCRef Z DPR.

## DPR1/4/5 (reference not used)

The volume previously referenced under this number has been identified as a will register, and is now available under reference DPR1/2/7 above.

Damaged and incomplete index at f.iv-vi. Includes caveats at f.ii-iii.

DPR1/4/7 1594-April 1598

Indexed at f.93B-93K, covering also first section of following volume (to f.261: numbers in the index indicate that this particular foliation originally continued into the 290s). In addition the index seems to cover yet another sequence of folios, running from ca.150s-290s (and possibly one other further series) but these folios have not yet been identified (possibly DPR1/4/9, or may not survive).

DPR1/4/8 April 1598-September 1598; c.December 1624-January 1630; c.December 1633-May 1636; c.[1632?]; c.1634; 1636; 1647; 1661

f.1-126, ca.1629/30-December 1631 (smaller pages)

f.127-265, ca.December 1631-December 1633 (f.138A-B ? not probate)

## DPR1/4/14 ca.April 1635-March 1638 and 1646

Fragile parchment index loose at back of volume is unfit for opening until conserved. Separate typescript index at ASCRef Z DPR, which uses the original foliation as described below.

The contents of this volume are at present bound in a jumbled order and may not all have come from the same original foliation sequence. Most but not all of the folios bear their original foliation numbers. Other folio numbers have been deduced from the entries in the original parchment index. There are many gaps in the foliation sequence. The present order of the folios is as follows: [80-81], 82-87, [88-89], 96-127, [127A], 161, 219, [204], 205-213, 190-193, 224-233, 194-203, 182-187, 234-324, 336-342, Blank sheet, 330-335, 20 (dated 1646), 22 (dated 1646), 188, [189].

An analysis of the entries indicates that the volume should be read in the following order:

f.80-89: Apr-May 1635

f.96-127: July 1635-Feb 1636

f.127A: May 1636

f.161: May [?1636]

f.190-193: Nov 1636

f.194-203: Nov 1636-Jan 1637

f.204-213: Jan 1637

f.219: Feb 1637

f.224-233: Feb-Mar 1637

f.234-324: Mar-Dec 1637

f.330-335: Feb 1638

f.336-342: Feb-Mar 1638

f.20-22: July-Aug 1646

DPR1/4/15 1638-1644

Indexed at f.169-179 (photocopy available at ASCRef Z DPR, ? not comprehensive).  
Entries in this volume have not always been enrolled in strict chronological order.

DPR1/4/16 April 1645-1650 and 1660-1665

20th-century pencil pagination runs throughout volume, as follows:

p.3-179 (original ink foliation 1-89): 1645-1650

p.180-490: 1660-1665 (p.259 occurs twice)

Volume originally finished at p.482: loose sheets containing pages 483-490 were presumably identified as belonging to this volume after it had been rebound [in the second half of the 20th century].

Separate typescript index at ASCRef Z DPR, using the pencil pagination. This index did not originally cover the loose pages 483-490 but manuscript entries (personal names only) for these pages have been added. Partial manuscript index for C-E and J-W at p.1-2, covering 1645-1650 only (using ink foliation).

DPR1/4/17 1645-1653

Separate typescript index at ASCRef Z DPR. Folios 1-17 and 20-22 are missing.

DPR1/4/18 November 1660 - October 1668

Separate typescript index at ASCRef Z DPR. When paginated the number 146 was not used.

DPR1/4/19 1724-1735

Separate typescript index at ASCRef Z DPR (omitting entries on loose p.15-16, see under DPR1/2/47 above). In the original ink pagination the page between 94 and 95 was wrongly numbered 93 (now renumbered 94A), and 146 was used twice (now 146 and 146A).

Arranged in date order and numbered December 2003: pencil numbers at the bottom of the first sheet of each item indicate the order in which the items were originally filed, but should not be used for citation purposes. Not indexed.

## Commissions, monitions and citations

DPR1/5 1650-1732 and 1753-1857 (with gaps)

Any surviving commissions etc. for the pre-1650 period and for 1733-1752 will be found with the series of original wills. These commissions etc. were generated during the court proceedings relating to the grant of probate and administration. The pre-1797 documents are chiefly in chronological order but after that date most of them are unsorted. Commissions are authorisations to carry out particular acts, usually administration of an oath to an executor or administrator of an estate. Monitions are usually general summonses to kindred or others with an interest in a will or administration of an estate. Citations are summonses usually to a specific person, sometimes to anyone concerned, to appear in an ecclesiastical court for some specific purpose.

## Dean and Chapter of Durham's Allerton and Allertonshire peculiar

DPR1/6 1670-1808

Two series of probate records relating to places in the Dean and Chapter of Durham's Allerton and Allertonshire peculiar, as follows:

- original wills, inventories and executors' bonds, 1681-1845 (with some gaps in the series)

2.5 metres

*Other catalogues:* The documents within this series are listed within a separate online file, though for most purposes a search of the North East Inheritance database will generally be more helpful.

## Alphabet books

DPR1/7 1540-1858

Manuscript lists of names of deceased persons, arranged by initial letter of surnames (and within each letter, in yearly groups of wills and administration bonds). In the first instance only original wills and bonds were listed, but some later annotations indicate when an inventory survives and, for certain periods, the deceased person's place of abode, when this can be ascertained. Note that some of the documents mentioned within these lists, particularly bonds, no longer survive.

Except as otherwise stated in the list below, these volumes relate to wills proved and administrations granted within the bishop of Durham's consistory court or registry (including wills from the bishop's Allertonshire peculiar, but excluding those from the Dean and Chapter's peculiar).

Copies are also held by the Society of Genealogists in London and the Genealogical Society of Utah (GSU).

Digital photographs of DPR1/7/1-5 are also held by the GSU. These are available for use within Durham University only, but for all practical purposes as a finding aid are superseded by the online North East Inheritance database.
