Preface

Creation of catalogue

Initial part of file generated from MODES database using specification ent2sgml.lat v6.4, May 2002.

The main data (within the dsc tag) is generated from a separate MODES database, using Modes output specification files and AWK and PERL scripts, all of which are designed and maintained locally. See the comment tag within the dsc tag below (preceding the data) for the date on which the data was generated and the version number for the files used.

For information on MODES software, see <http://www.modes.org.uk/>.

For information on the specifications and scripts used, see <http://www.dur.ac.uk/a.j.gray/>.
