Contents

Records relating chiefly to visitations of the diocese of Durham by bishops and spiritual chancellors of Durham, 1577-1960 (predominantly 18th-20th centuries), but also including: a little material relating to episcopal visitations of Durham Cathedral, 1788 and 1893-1900; a few items relating to episcopal visitations of dioceses other than Durham, 1745-1770; and a few acts of the court of the commissary for Hexham and Hexhamshire, a detached part of the diocese of York, ca.1667-1670

Visitation procedures and documents

Background information on visitation procedures, together with notes on the documents generated by the visitations, are in the separate guide, Administrative Histories for the Durham Diocesan Records.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Conditions of access

Items under 30 years old may only be produced if a reader has obtained permission to see them from the depositor (most often the Durham Diocesan Registrar or her/his representative), except for items in the public domain which are made available with no closure period. Longer closure periods apply for certain classes of documents, e.g. personal files are closed for 100 years from the date of the latest item in the file. Details are given within this catalogue: unless otherwise stated, a 30 year closure applies.

Bibliography

For general works on episcopal visitation, editions of clergy visitation returns from other dioceses, and publications relating to the disputed jurisdiction with York, see the bibliography within the Administrative Histories guide.

The current location of this item has not yet been traced.

As transcripts of parish registers ('Bishop's Transcripts') were often handed in at visitations, the series of these within the Episcopal Administration section of the Durham Diocesan Records includes some returns to articles, presentments and lists of wardens' names. These are noted within this catalogue under DDR/EV/VIS/5.

Records of archdeacons' visitations (including act books) are listed in the Archdeacons section of the Durham Diocesan Records (DDR/A). For a visitation of Sherburn Hospital in 1735, see DDR/EA/RGN/9/1 in the Episcopal Administration section of the Durham Diocesan Records.

Records of rural deans' visitations are listed in the Rural deans section of the Durham Diocesan Records (under DDR/D/VIS). Rural deans' returns dated 1879-1919 are also included within the first series of Durham parish files among the Bishop's Office records (under DDR/BP/PAR/2).

Some returns, not associated with visitations but similar in subject matter, are in the Episcopal Administration section of the diocesan records, as follows:

DDR/EA/GLE/1-2	glebe terriers, chiefly 1788, 1792 and 1806 (first series) and late 19th/early 20th century (second series)
DDR/EA/CLN/9	returns relating to non-residence, curates, glebe houses, numbers of churches/chapels and services, 1839-1915

DDR/EA/CHP/1	survey of parish rooms, 1893

Durham Cathedral archives include both medieval and modern material on episcopal visitations, and some similar records for parishes within the Dean and Chapter's patronage, as follows:

Medieval material is within the Locelli class.

Returns to an enquiry into benefice incomes within Chapter parishes (including some information on population, mining, size of churches and parsonage houses) dated 1881 are in class DCD/B/CE.

- returns made by the official of the officialty of the Dean and Chapter at his [uncompleted] visitation, October 1791-March 1792. For a guide to the Dean and Chapter officialty parishes (in which they exercised archidiaconal jurisdiction), see the section on Peculiar Jurisdictions within the Administrative Histories for the Durham Diocesan Records.

The episcopal visitation returns include information on dates of degrees, orders and admissions of the incumbents, as well as covering the topics summarised in the tables above. Copies of Bishop Barrington's printed letter accompanying the queries survive with many, but not all of the returns. The queries were sent out in two sections, with many of the responses referring to delays in receipt of the second section.

Archidiaconal (and officialty) returns collect basic information on the incumbent, patron, parsonage house, church building (size and state of repair), services, vestments and furniture, lands, and directions concerning fabric. In general, the returns by the archdeacon of Northumberland and the Dean and Chapter's official (John Sharp) are fuller than those by the archdeacon of Durham, often including a list of clergy and churchwardens in attendance.

4 volumes (disbound and boxed)

Returns are arranged roughly by deanery, but with episcopal and archidiaconal/officialty returns for the same deanery frequently in different volumes. Lists of parishes with episcopal returns are at the front of each volume, and at the back of volume 1 is a cumulative index to these returns. Lists of parishes with archidiaconal or officialty returns precede the groups of these returns in each volume. The returns are referenced within these lists (and within the cumulative index) by red numbers: note that the series of red numbers for episcopal returns does not match the red numbers used for archidiaconal/officialty returns.

Other catalogues: Detailed notes on both the archidiaconal and episcopal returns are kept with the printed catalogues within Palace Green Library search room.

Microfilm copies available in the Palace Green library search room (ref 5TC 179-181), should be used instead of original volumes due to their fragile condition.

DDR/EV/RET/3 June-July 1810

Ordinary visitation of clergy by Shute Barrington

An index to parishes is at the front of the first volume, referring to the returns by the numbers in red ink (as noted in list below). The volumes have not been analysed closely, but returns appear to be collated by deanery as noted in the list following.

Returns include information on dates of degrees, orders and admissions of the incumbents. Some returns appear to have been trimmed or written out separately in order to save postage costs (see for instance vol.3, f.21v, 34v, 142-144, 212-213).

DDR/EV/RET/4 July-August 1814

Ordinary visitation of clergy by Shute Barrington

Returns are arranged by deanery as noted in list following. Each volume includes an index to parishes at the front, using the red ink numbers on the first page of each return. The volumes have been arranged in the approximate order in which the deaneries appear to have been visited (from the printed visitation programme).

Returns include information on dates of degrees, orders and admissions of the incumbents. There is no evidence that the returns were posted, so they were probably handed in at the visitation.

Some of the returns note whether the parish is in the North, South, East or West division of its deanery, but this does not affect the order of the returns. Note that some returns for chapelries or new parishes and districts have been bound immediately following their mother parish, rather than strictly alphabetically. A modern index to parishes is pasted inside the volume.

Included with the returns are the following items:

Durham St Giles (Easington deanery) Disputed endowment of parish church

The questions in these returns are much less structured than in the preceding two volumes, with extensive space for commentary and discursive answers. DDR/EV/RET/15 July 1900

Visitation of clergy by Brooke Foss Westcott

The questions in these returns invite comments and reflection on the topics covered, rather than merely asking for information or statistics. The bishop's preamble states that he is interested in the "intellectual, social and religious life of the people," and does not expect answers to all questions but wants to "learn some of the main results of your experience for my own guidance."

Arranged approximately alphabetically by parish, with chapelry returns sometimes filed after those for their mother parish. A modern index to parishes is kept with the lists in the search room.

Additional items enclosed with the returns include:

Auckland St Andrew	Account by curate of Brandon Colliery, St Agatha's mission, of some recreations of Durham Colliery workmen.

For each visitation except 1728 lists of procurations are arranged by deanery, with the status of the incumbent or curate of each parish or chapelry noted ('R', 'V', 'P' or 'C' for rector, vicar, [perpetual curate] or curate), and a total amount collected for each deanery calculated. Some entries are marked 'X', apparently indicating that payment has been made. Summaries of the total amount of procurations collected for each deanery are included for 1709 and 1713; the 1713 list also includes details of arrears owing from the visitation. The 1728 list is unfinished and gives details of procurations and arrears, listed under Easington deanery, for Durham archdeaconry and Houghton-le-Spring and Wearmouth parishes only.

Episcopal visitations of the diocese (main series of papers and volumes)

DDR/EV/VIS/5 1668-1940 (but listed to 1900 only)

This series includes inhibitions, odd sets of clergy visitation articles, general monitions, clergy and churchwardens' call books, by the late 19th century some churchwardens' certificates (re their admittances), some presentments (generally not a complete set for each deanery), from the late 18th century onwards churchwardens' returns to visitation articles (often not a complete set for each deanery), some lists of comperta, details of procurations and visitation expenses, relaxations of inhibitions and miscellaneous papers and correspondence.

The series generally excludes printed visitation charges, which are usually found in printed books collections, and completed clergy visitation returns, which are listed at DDR/EV/RET above.

63 boxes

These papers are arranged chronologically by visitation.

Within each visitation the documents are arranged by type and in an order which reflects as far as possible the chronological order of the visitation proceedings. Subseries such as churchwardens' presentments and visitation returns are further subdivided by visitation centre and then by deanery and parish. From 1861 onwards the churchwardens and clergy were usually visited at separate times (with the churchwardens' visitation, carried out by the chancellor on behalf of the bishop, usually taking place in the spring and the clergy visitation in the autumn); the arrangement of the papers reflects this pattern.

Related material in other DUL collections: As they were frequently handed in at visitations, the Bishops' Transcripts of parish registers often include visitation material, most commonly noting "no presentments" on the back of the transcripts. The following parish register transcripts (series DDR/EA/PBT/2) include more specific visitation material.
