Introduction

Collection title: Durham Cathedral Archive: Elemosinaria

Reference code: GB-0033-DCD-Elemos

Dates of creation:

Extent: 6 original boxes

Repository: Durham University Library, Archives and Special Collections

Creator: documents concerning the properties, etc., that constituted the estate of the almoner; some now missing.

Language of material: Latin

Accession details

Placed in the University's care by the Dean and Chapter of Durham in 1948.

Arrangement

The numbering system reflects the medieval organisation of the documents in boxes with four compartments: the first number is the compartment, the second the box, and the final one the number in the sequence (thus 1.2.Elemos.5 is the fifth document in the first compartment of the second box). The numbers were assigned in the Repertorium Magnum.

Form of citation

The form of citation should be GB-0033-DCD-Elemos, or the collection title, Durham Cathedral Muniments: Elemosinaria, *reference number*.

To order items in the searchroom, use the collection reference code(s), derived by removing the repository code (GB-0033-), followed by the reference number. Citing the section of the finding aid is useful.

Related material

Alm.Sm.Cart. p.39-66 is an inventory, with index of places (p.39), to the charters of the office of the almoner of Durham, drawn up by William of Appleby almoner in 1399; considerably annotated, amended and enlarged, mostly in the hands of John Fishburn and Thomas Swalwell.
