Introduction

Reference code: GB-0033-DDR/EA

Collection title: Durham Diocesan Records: episcopal administration

Dates of creation: 1494 onwards but predominantly 18th-20th centuries

Extent: 232 metres (173 metres excluding clergy records)

Repository: Durham University Library, Archives and Special Collections

Creator: Diocesan Registrar (as registrar to the Bishops of Durham)

Contents

Records created or maintained by the Registrar of the diocese of Durham, in relation to the bishop's administrative functions. This section includes most of the administrative records among the diocesan records, but note the distinction between this and similar sections of the collection:

Records relating to functions in which the bishop takes a more personal interest are typically administered by staff within the Bishop's Office, and can be found within section DDR/BP (Bishops' Office records).

Records relating to routine administration of the finances, boards and committees which govern the diocese, especially from the late 19th century onwards, are created by staff within the Diocesan Office. These can be found within section DDR/DA (Diocesan administration).

Certain functions are technically more legal in nature, and are managed by or on behalf of the bishop's judge (Spiritual Chancellor). These relate in particular to the bishop's jurisdiction over granting faculties for church alterations, proving of wills, granting licences for those about to get married by licence rather than banns, and the sequestration of benefice income during vacancies. These series are all within the section DDR/EJ (Jurisdiction and courts).

Legislative and historical background to episcopal administration

Background essays on the administration of the diocese of Durham generally, and on the classes of records covered within this catalogue, are in the separate guide, Administrative Histories for the Durham Diocesan Records. General bibliographies are also within the same guide, and omitted from this catalogue except for editions of specific records.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Conditions of access

Items under 30 years old may only be produced if a reader has obtained permission to see them from the depositor (most often the Durham Diocesan Registrar or her/his representative), except for items in the public domain which are made available with no closure period. Longer closure periods apply for certain classes of documents, e.g. personal files are closed for up to 100 years from the date of the latest item in the file. Details are given within this catalogue: unless otherwise stated, a 30 year closure applies.

Bishops' Registers and Acts

Reference code: DDR/EA/ACT

Bishops' registers and act books

Reference code: DDR/EA/ACT/1

1494-1951

Registers of the formal acts of the bishops of Durham

Until 1875, the registers usually begin and end with an episcopate. From about 1875, the dates of the registers (generally called 'act books' by that date) no longer correspond with the confirmation or death/resignation of a bishop.

12 volumes

Ownership history: Volumes 1-5 were formerly referenced as DDR/vols.I/1-5, and volumes 6-12 as DDR vols 1975/i-vii.

Other catalogues: See also survey of surviving registers up to 1683 (DDR/EA/ACT/1/4 below), in D.M.Smith, *Guide to bishops' registers of England and Wales* (Royal Historical Society, London, 1981), p.264-273 (where the Durham Diocesan Records are referenced as DSR, and Durham Cathedral archives as DPK).

Some extracts from bishops' registers are printed in J.Raine (ed), *Depositions and other ecclesiastical proceedings from the courts of Durham, extending from 1311 to the reign of Elizabeth* (Surtees Society, number 21, 1845).

The pre-1683 bishops' registers have been published on microfilm, in *Church authority and power in medieval and early modern Britain: the episcopal registers*, 111 microfilm reels and 1 guide; part 3 includes registers of the bishops of Durham, 1311-1683, in 12 reels (Harvester Press Microform Publications Ltd, Brighton, 1983-1987). A full set of the films is available at Palace Green Library: a guide to the contents of most of these microfilms is kept with them, but does not cover the Durham bishops' registers.

Related material in other DUL collections: The Durham Cathedral archive includes the following episcopal registers:

Richard of Bury (fragmentary, printed Surtees Society 119, p.22-64) and Thomas Hatfield, 1343-1344 and 1350-1380 (DCD Reg.Hat., microfilm available for copying at PG FILM 124)

Sede vacante administration, 1406 (DCD Misc.Ch. 5723)

Thomas Langley (printed Surtees Society 164, 166, 169, 170, 177, 182), 1406-1437 (DCD Reg.Lang.)

Sede vacante administration, 1576 (DCD/D/SJC/V1)

Related material elsewhere: The National Archives, Palatinate of Durham records (ref Durh 3/1): Registers of Richard Kellawe and Richard of Bury (fragment), 1311-1316 and 1334-1345; printed T.D.Hardy, *Registrum Palatinum Dunelmense* (Rolls Series, volumes I-III, 1873-1878)

Auckland Castle: Act books of Edward Chandler and Joseph Butler (1730-1752) were noted as seen at Auckland Castle in 1958, but have not been traced more recently.

Printed G.Hinde (ed), *The registers of Cuthbert Tunstall, bishop of Durham 1530-59, and James Pilkington, bishop of Durham 1561-76* (Surtees Society, number 161, 1952)

Related material in other DUL collections: Sede vacante acts are registered in DCD/D/SJC/V/1 within the Durham Cathedral archives, for March to May 1576. The right to jurisdiction "sede vacante" (during a vacancy) being in dispute, it was at first exercised by the Dean and Chapter of Durham and then, after a compromise had been reached, by the Dean and Chapter of York; hence the two different registers used during this vacancy.

DDR/EA/ACT/1/3 1577-1587

Richard Barnes

Ordinations printed in J.Raine (ed), *The injunctions and other ecclesiastical proceedings of Richard Barnes, bishop of Durham, from 1575 to 1587* (Surtees Society, number 22, 1850) , pp.xcviii-cii.

Related material in other DUL collections: See also volume of acts "coram episcopo" within the Durham Cathedral archives, ref DCD/D/SJB/4, which includes the actual business of institutions and resignations, July 1581 to April 1582.

Some of these acts appear to have been drawn up as drafts for the main series of act books and bishops' registers.

Separate folders of lists/draft acts are each arranged in date order

Registered copies of orders in Council relating to the creation of new parishes, together with some deeds and leases etc. List of contents loose at front

1 volume

Ownership history: Formerly cited as DDR/vols.XI/3

Orders in council, pastoral orders and pastoral schemes

DDR/EA/BEP/4 1831-1999

Orders in Council, together with pastoral schemes and Church Commissioners' or Bishops' orders, many with plans showing alterations to benefices and boundaries etc. Most items include an original, sealed copy of the order, together with a number of smaller, printed copies. Apart from covering letters, very little correspondence is contained within the series.

Arranged in numerical order, except for the earliest orders, which are in an alpha sequence from A to U. This order is the same as that used in the manuscript indexes previously maintained in the Diocesan Registry (from which the following list is largely derived), and is roughly chronological.

Note that no attempt is made within this list to preserve the legal spelling and format of parish or benefice names, except where necessary to the description of the parish/benefice reorganisation concerned. Instead, our usual format (such as 'Billingham St Aidan') is used, in order to facilitate searching across the catalogues.

4½ metres

Other catalogues: Manuscript notes on plans with the pre-1900 Orders in Council (DDR/EA/BEP/4/A-358) are kept with the printed catalogues within Palace Green Library.

Online versions of the London Gazette are available at www.thegazette.co.uk, and can be used to search for any Orders published therein. When searching, note that the date of publication is generally later than the date of order noted within this list, and leave 'Notice type' at 'Show all' (not 'Church').

Related material in other DUL collections: 21st century pastoral orders and schemes are listed at DDR/EA/BEP/13. As well as related records within this section of the Durham Diocesan Records, see also other Diocesan Registry records relating to the Sharing of Church Buildings (DDR/EA/CHS), the Designation of Parish Centres of Worship (DDR/EA/CHW) and Suspension of Presentation (DDR/EA/PAS).

Records from the Pastoral Committee are in the separate catalogue of Diocesan Office records, under DDR/DA/PAS.

Related material elsewhere: This series relates to County Durham parishes and chapelries only. Similar material for Northumberland if it survives (including pre-1882 material) should be among the Newcastle Diocesan Records in the Northumberland Archives.

[1813?], 1866-1961

Tables of fees fixed by the Chancellor of the diocese (before 1921), or by the Ecclesiastical/Church Commissioners (from 1938). Some correspondence also survives with the tables, especially for the earlier ones.

Only contains material relating to County Durham parishes and chapelries. Tables of fees for Northumberland if they survive should be among the Newcastle Diocesan Records in the Northumberland Record Office.

1871 Ecclesiastical Dilapidations Act papers

Reference code: DDR/EA/BED/2

1872-1911

Orders for dilapidations, with schedules of repairs, and surveyors' certificates of completion, together with some other papers.

Note that this class contains only material relating to County Durham parishes and chapelries. Similar material for Northumberland if it survives (including pre-1882 material) should be among the Newcastle Diocesan Records in the Northumberland Record Office.

7 boxes

Ownership history: Although included in the list compiled by the Diocesan Registry (and below), dilapidations papers are not held from 1911-1926 (numbers 739-1139), except for two stray deposits (numbers 832A and 1057). The Parsonages Board holds records dating from its creation in 1926, but the 1911-1926 records appear to have been lost.

Numbered approximately by the date of the bishops' orders for dilapidation - certificates of completion may be dated some months or years later.

Other catalogues: The catalogue below is based on the list compiled and maintained by the Diocesan Registry. This lists the documents in strict date (not number) order, sometimes listing orders and certificates for the same item separately.

Parochial statistics

DDR/EA/BEM/5 1858

Three volumes of statistics arranged by archdeaconry. For each parish, townships are listed and figures relating to acreages, population, church accommodation and schools are included. Some general notes are also included. Although the layout of the entries varies between the three volumes, the information contained is very similar. Only the Durham volume is dated.

Ownership history: Deposited by the Bishop's Office and previously referenced under accession number AUC/48/box 8-9

DDR/EA/BEM/5/1

Durham archdeaconry. Includes extensive notes on church buildings.

DDR/EA/BEM/5/2

Northumberland archdeaconry. Includes column for population in 1861 (not completed)

DDR/EA/BEM/5/3

Lindisfarne archdeaconry. Includes prefatory note discussing influence of Presbyterianism and difficulties of pastoral work, and extensive notes on church buildings.

Also printed map of Northumberland showing electoral divisions and wards (J and C Walker, London), [mid 19th cent.] (pasted at front), and small map marked to show collieries, settlements and site of proposed chapel in Warkworth (f.4). Loose in volume is a list of topics, presumably drawn from the enquiry which prompted this series.

Parochial returns re church buildings

DDR/EA/BEM/6 August-September 1815

Returns to questions from the bishop regarding population, number and size of church buildings, parsonage houses and whether fit for residence, and annual values of livings. Clergy are not all required to answer all questions, and are often directed to answer only in relation to specific chapels (as noted within the list), so these returns were perhaps intended as supplemental to Shute Barrington's 1814 visitation returns at DDR/EV/RET/4.

Consecrations - drafts and preparatory papers

Reference code: DDR/EA/CHC/2

c.1850-1920

Drafts of the petitions for and sentences of consecration, often with additional notes or correspondence, arranged by place

Note that this class includes some draft consecration papers for churches and burial grounds in Northumberland as well as County Durham, for the period up to 1882.

Post-1882 material for Northumberland should be among the Newcastle Diocesan Records in the Northumberland Record Office.

13 boxes

Related material in other DUL collections: DDR/EA/RGM: Miscellaneous Business ('MB') Papers. The 'MB' series of papers includes many similar draft consecration papers, particularly for the period 1911-1939.

The main series of (original) consecration deeds (following) includes draft papers and letters etc from 1939.

Consecration deeds

Reference code: DDR/EA/CHC/3

1719-1967 and 1978 (but mainly 19th-20th centuries)

Formal petitions for consecration and sentences of consecration. Occasionally only one of these documents survives. Plans are often attached to the petition or sentence. From 1939, the documents typically include draft consecration papers and letters etc, as well as the formal petitions and sentences.

Note that this class contains only material relating to County Durham parishes and chapelries. Consecration deeds for Northumberland if they survive (including pre-1882 items) should be held among the Newcastle Diocesan Records in the Northumberland Record Office.

26 boxes

The consecration deeds are sorted as in the manuscript index compiled by the Diocesan Registry, viz. A-Z by initial letter of parish/place, and numerical (date) order within letter. Some parishes or districts may be listed under different letters at different dates, and the numbering/ordering is not absolutely consistent. Note in particular that the Registry index repeats many of the numbers for the 'H' series, which is therefore now split into two subseries, referenced 'H' (to 1882) and 'HH' (from 1883).

Durham diocese

Manuscript list of terriers which were compiled ca.1888-1902 for parishes etc in Durham diocese, headed "List of Terriers which have been returned into the Diocesan Registry Durham".

This list was presumably drawn up to indicate which terriers in this series had been received in Durham diocesan registry by the early 20th century. Other items (e.g. 2/95-2/96) may have been added to this series at a later date.

With (attached) printed circular issued by [Joseph Barber Lightfoot], bishop of Durham, containing the text of a resolution of the Diocesan Conference held at Durham on 23 February 1888 relating to the better preservation and recording of parochial trust property and funds, with provision for the annual review of such records [terriers] at the Easter Vestry and the deposit of certified copies of the records [terriers] with the Durham diocesan registrar

Tithe apportionments and plans

Reference code: DDR/EA/TTH/1

1837-1852

The schedule or "apportionment" indicates the ownership, tenancy, field names and the use to which the land was being put at the time. The entries are arranged under the names of owners and not according to the names or positions of pieces of land, but a number in the schedule links each parcel of land with the same number on the large scale plan.

As well as the schedule of lands and rent-charges, the apportionments include as an introduction an account of the agreement or award for the commutation of tithes (see notes on the 1836 Tithe Act within the Administrative Histories guide).

All original apportionments and many altered apportionments are accompanied by plans. Plans with the original apportionments are usually large-scale maps on a separate sheet, originally attached to the apportionment. These often prove to be the earliest surviving large-scale plans of an area.

The scale of the plans is often expressed in terms of chains, one chain being 66 feet. Some approximate modern equivalents of scales frequently used for tithe plans are:

3 chains to 1 inch = 26½ inches to 1 mile

4 chains to 1 inch = 20 inches to 1 mile

6 chains to 1 inch = 13 inches to 1 mile

Listed alphabetically by the names of the townships which they cover, all of which are in County Durham except Crayke (a parish in Yorkshire) and Girsby and Over Dinsdale (two Yorkshire townships in the parish of Sockburn, County Durham).

The date given within the list is that on which the award or agreement was confirmed by the Tithe Commissioners (with the date of the plan also shown). Although confirmation may have occurred several years after an award was made or agreement reached, this date has been chosen as it is the one by which reference is made to the original apportionment in later altered apportionments.

Other catalogues: A visual key to the areas covered by the tithe maps is online at <http://valentine.dur.ac.uk/apps/maps/DurhamTithe/>. Digitised copies of the plans and apportionments, and transcripts of the apportionments, are available for consultation within the search room and can be copied for users (consult search room for details of fees).

Related material elsewhere: The diocesan copies of tithe apportionments for Northumberland and Newcastle, which were included in the diocese of Durham until the formation of the diocese of Newcastle in 1882, are now deposited in Northumberland Archives, Woodhorn, and Tyne and Wear Archives and Museums, Newcastle.

Altered tithe apportionments and plans

Reference code: DDR/EA/TTH/2

Dates of creation: 1841-1936

This series of altered apportionments is almost certainly incomplete, and each altered apportionment only covers a small part of a township (often a single property or group of fields). In addition, many changes in ownership were not followed by an altered apportionment at all, informal agreements being made instead between tithe-owners and landowners.

Where no date is given for a plan, only the altered apportionment survives. Plans are briefly described with reference to their scale (e.g. number of chains to an inch, see under DDR/EA/TTH/1 for modern equivalents), or Ordnance Survey sheet references (25" referring to the 1:2500 scale, approx 25 inches to a mile).

Related material elsewhere: The Tithe Commissioners' copies of the tithe commutation records (in the National Archives) include all the altered apportionments for each township, kept with the original maps and apportionments.

Parish register transcripts (commonly known as "Bishops' Transcripts")

Reference code: DDR/EA/PBT/2

1600-1919

Bishops' transcripts of registers of parishes and chapelries from the following areas:

the archdeaconries of Durham and Auckland;

the archdeaconries of Northumberland and Lindisfarne (in the diocese of Durham until 1882);

Hexhamshire from 1837 onwards (when this area ceased to be a detached part of the diocese of York and was transferred to the diocese of Durham). There are transcripts for the following Hexhamshire parishes and chapelries: Allendale St Cuthbert; Allendale St Peter; Carr Shield (or High West Allen); Hexham; Ninebanks (or Low West Allen); St John Lee; and Whitley Chapel. A few post-1837

Hexhamshire transcripts are still among the York Diocesan Archives. For details see *A Handlist of Parish-Register Transcripts in the Borthwick Institute of Historical Research*, within the Local printed collection.

Thockrington in Northumberland (a York ecclesiastical peculiar prior to 1837). All the Thockrington bishops' transcripts which are known to survive are now in this series.

The Durham ecclesiastical peculiars of Allertonshire (in Yorkshire) prior to 1813. There are transcripts for the following Allertonshire parishes and chapelries: Birkby, Brompton, Cowesby, Deighton, Hutton Bonville, Kirby Sigston, Leake, Northallerton with Romanby township, Osmotherley, Otterington North, Rounton West, Nether Silton, Thornton-le-Street and Worsall High.

Crayke in Yorkshire prior to 1837 (when this parish ceased to be a detached part of the diocese of Durham and was transferred to the diocese of York)

Alston and Garrigill in Cumberland (in the diocese of Durham until 1882)

The exact dates of all extant pre-1760 transcripts have been noted in this list, but in general outside dates only have been given for the post-1760 transcripts.

Biographical information: See separate Administrative Histories guide for further notes on the dates of transcripts, on the fuller format introduced by Bishop Barrington in 1797, and for references to dissenters and descriptions of parish registers noted within the BTs.

The transcripts were originally kept in annual bundles, each of which covered the whole diocese, but they have now (since 1969) been sorted into parish and chapelry order. They are listed here in one alphabetical sequence according to place-name.

Related material elsewhere: York Diocesan Archives (Borthwick Institute) holds bishops' transcripts from Hexhamshire before 1837.

In the same way as at episcopal and archidiaconal visitations, parish register transcripts were often handed in at visitations of peculiars. Some of these are still with the visitation returns from the Allertonshire peculiars (see DDR/P/ALB/1). Many parish register transcripts from both the bishop and the dean and chapter of Durham's Allertonshire peculiars prior to 1813, together with most surviving parish register transcripts from parishes etc in the officialty, are, however, kept with this main series of parish register transcripts. Some parish register transcripts from the dean and chapter's peculiar are in the separately described collection of Durham Cathedral Muniments. Other stray parish register transcripts from parishes in both the diocese of Durham and the Durham peculiars are among the Howe MSS in Durham Chapter Library.

Post-1813 parish register transcripts from both the Allertonshire peculiars are with the York Diocesan Archives in the Borthwick Institute in York (while most of the surviving original parish registers from the peculiars have now been deposited in the North Yorkshire Record Office).

Bishops' transcripts dated 1702-1757 from (chiefly) Allertonshire and Crayke, but also some Durham and Northumberland parishes beginning D, E or G, are among the J.J. Howe collection at Durham Cathedral Library. These are noted below and listed at JJH 8/6.

Registers of meeting house certificates

Reference code: DDR/EA/NCN/1

4 volumes

Biographical information: Although registration of meeting houses was required from 1688, the registers date only from 1780. In York, the earliest registrations are found in faculty registers, although registrations for Durham meetings have not been found there.

Registration was taken away from the bishop's court and given to the Registrar General in 1852.

Meeting house certificates

Reference code: DDR/EA/NCN/2

1732-1852

Certificates sent to the diocesan registry, certifying that a particular building, chapel or meeting place is used for public religious worship. The certificates are often endorsed with a note of receipt in the registry and the issue of a certificate of registration by the registry. These registration certificates (or copies of them) do not survive among the DDR.

The certificates usually include a description of the location or type of meeting place, and are signed by members of the meeting or by the minister and trustees. A minority of the certificates state the denomination of the meeting, but most refer merely to a meeting of 'protestants' or 'dissenters'. Certificates are held for nonconformist meetings in both Northumberland and County Durham.

6 boxes

Arranged by township or place of the meeting or chapel, with a note of the parish or chapelry, and of any street or farm name (as given in the document) being included within the description. Form of place name is as given in document, sometimes a street or house name may have been used rather than a township name.

The certificates are held in a single sequence for both Northumberland and Durham archdeaconries.

Compilation of charters

Reference code: DDR/EA/RGL/6

1663

Copies of royal charters granting property and rights to bishops of Durham, compiled initially at the instance of Bishop Cosin. Loose folio at front (cut to a different size from the rest of the volume) includes a memo from Ralph Trotter (registrar), that he had received the volume by one of Lord Crewe's servants, "in confidence not to reveal names" (presumably of the giver). Trotter adds in 1728 that he is leaving the volume for the sole use of future diocesan registrars.

The volume includes the following:

Contents of the red book ("liber ruber", now Lincoln's Inn Hales MS 114), containing royal charters and episcopal privileges, and described as having been formerly kept in the Durham Chancery, but lately damaged ("negligentissime deperditus") by servants and officers of Bishop Morton. The contents is a list of charters and events concerning the monks of St Cuthbert and bishops of Durham, from 867 to [1087x1096] (a charter of William II to William [of St Calais]).

The bulk of the volume is copies of, or references to, charters, from Egfrid of Northumbria to Elizabeth I. Also includes acts of parliament, judgments etc concerning the bishopric, down to temp. James I.

Letters patent of Henry VIII and of Philip and Mary concerning the foundation of the Cathedral and the gift of the nomination and collation of the 12 cathedral prebends to bishops of Durham

Towards the back is a list of livings, giving patrons and valuations. The list includes members of the new cathedral foundation and also details of chantries, suggesting a date between 1541 and 1547, although (oddly) a list of monastic houses is also included with their valuations (presumably from the *Valor Ecclesiasticus*).

Binding: parchment, damaged and loose (formerly part of a deed, perhaps an exemplification of a common recovery judging from the size and initial decoration)
1 volume (boxed)

Ownership history: Formerly referenced as both DDR/vols.XVIII/1 and DDR/EA/SER/1/1

This volume and its history is discussed in J.Raine (ed), *Historiae Dunelmensis Scriptores Tres...* (Surtees Society, No.9, 1839) , preface p.xvii-xviii, and the Red Book contents is printed as appendix cccxxx. The latter is also discussed by H.H.E.Craster, "The Red Book of Durham", in *The English Historical Review*, vol.40 (1925), p.504-532 (offprints held by University and Cathedral libraries).

Related material in other DUL collections: Drafts/copies of the Red Book are in the Mickleton and Spearman manuscripts, at MSP 10.

Miscellaneous Business ('MB') Papers

Reference code: DDR/EA/RGM

Yearly bundles of correspondence and drafts from the diocesan registry

The 'Miscellaneous Business' papers are grouped into yearly bundles, each consisting of a series of small folders, one per subject, parish or event (consecration etc) as appropriate. The folders contain notes, drafts of legal documents and in-letters, most of which relate to faculties, consecrations, sequestrations or surrogates, for which there are other classes of documents within the Durham Diocesan Records.

The early bundles are marked 'M.B. papers', and many are accompanied by cover lists. The folders in these bundles are numbered. Papers from the 1920s and 1930s (including those in the 'consecrations' and 'sequestrations' series) are not generally marked 'M.B.' or numbered, and are mainly kept in envelopes, although the style of record keeping and arrangement is otherwise similar. One bundle (covering 1894-1897) is marked 'N.B.' rather than 'M.B.', possibly in error.

24 boxes

Papers in original mini files, grouped into yearly bundles according to the date of the main business of the file (date of consecration or sequestration etc). Papers within the files may cover more than a single year.

Bundles that have survived more or less intact and whose folders are numbered, are sorted into their numerical order. Most of these bundles are accompanied by original sheets listing their contents. Other bundles are sorted into parish or church order as appropriate, with Durham and Northumberland churches kept separate.

General series

Reference code: DDR/EA/RGM/1

1874-1916, 1883-1884, 1887-1907, 1909-1916

Papers relating to a wide range of business, mainly concerning individual parishes or churches (faculties, consecrations, sequestrations). From 1912, correspondence relating to faculties is no longer kept with these papers. Up to 1882 (and occasionally for a few years thereafter), papers are held for parishes and chapelries in Northumberland as well as County Durham.
