Introduction

Collection title: Durham Probate Records: pre-1858 original wills and inventories (1726-1750)

Reference code: GB-0033-DPR1/1

Dates of creation: 1726-1750

Extent: 9 metres

Repository: Durham University Library, Archives and Special Collections

Creator: The Spiritual Chancellors to the bishops of Durham (through their Registrars)

Language of material: English, with some Latin

Contents

Original wills, inventories, accounts and associated documents, proved by the registrars to the bishops of Durham. See main DPR1 catalogue for further details on these records. As well as wills proved within the registry, this series also includes inventories and some other associated documents for those who died intestate, where administration was granted (although the actual administration bonds are stored within the separate DPR1/3 series).

Arrangement

The entries within this list are arranged in the same order as the original documents, viz documents for every will proved (or administration granted) within a single year are stored together. Within each year, the documents are in name order. This arrangement is reflected within the reference codes, but note that in a few cases documents were misfiled prior to 2006 and so are lettered or numbered out of sequence.

For pre-1752 wills, note that this is normally an 'old style' year, running from 25th March in the year stated until 24th March of the following year; however, the yearly bundling of wills was not entirely consistent in this respect. Where it can be established with some confidence (for instance, from the date of an accompanying bond or an endorsement relating to the executors' oaths), the precise date of probate or administration is stated within this list. In other cases, however, you may need to check a year each side of the actual year of probate, especially for earlier material (see also under Finding aids below).

Accession details

See main DPR1 catalogue.

Conditions of access

Open for consultation.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Finding aids

This list incorporates all the public information from the North East Inheritance database relating to the original wills and inventories etc, but only includes sparse references to the related records within other series of the Durham Probate Records (chiefly registered copies

in DPR1/2 and probate bonds in DPR1/3). The online database at <http://familyrecords.dur.ac.uk/nei/data/> will generally be found more helpful for research using the probate records, as it lists together records from multiple series relating to the same deceased person, and can be searched by person, place, occupation and document type as well as dates of probate and of documents. All the data within this catalogue is made available through the online database.

For links to the lists for other parts of the series of original wills (DPRI/1), see the collection level description, or use these links for the previous list and next list.

Form of citation

The form of citation should use the code GB-0033-DPR, or the collection name Durham Probate Records, followed by the full *reference code* shown within the list below.

To order items in the searchroom, use the full reference number shown. Note that in this list, the references are shown as “DPRI/1/...”, rather than “DPR1/1/...” as in the higher-level Durham Probate Records catalogues (roman numeral I rather than arabic 1): the difference is immaterial.

Bibliography

For a bibliography of Useful texts relating to these and other probate records, with links to online full text where available, see the North East Inheritance project pages.

John TALLAR []; also spelt [Taylor]

This item was found loose in box DPRI/3/1737-1738, between bundles for 1737 and 1738. There are two John Taylor candidates in 1737, none in 1738: (1) John Taylor whose relict was a resident of Bywell St Peter and who enters a £400 administration bond (DPRI/3/1737/B110) that is witnessed by the same John Marshall whose signature appears among the appraisors on this inventory; (2) John Taylor, whose widow Dorothy Hymers latterly the wife of Thomas Hymers of Kirkwhelpington yeoman, enters a £60 administration bond (DPRI/3/1738/B128). The endorsement to the inventory refers to Horns Castle, in Kirkwhelpington parish, supporting a link to DPRI/3/1738/B128; while the presence of John Marshall and the correspondence of the value of the chattles in the inventory and the penal sum of bond DPRI/3/1738/B110 (usually double the value) suggest a link to DPRI/3/1738/B110. Alternatively, the inventory may refer to another as yet unidentified John Taylor. No probate Act books survive for this period. See - DPRI/3/1738/B110 - DPRI/3/1738/B128

DPRI/1/1764/J3 22 October 1743

Rachael JOHNSON, spinster, of parish of Sunderland near the sea in the county of Durham [Sunderland, County Durham]

It is alleged in the depositions that the original will of Rachael Johnson many years before 1743 was entered into the Durham Registry, but never proved, and subsequently lost or suppressed. The existence of the will being unknown or perhaps unproven, administration of her estate was granted in 1743 to John Harle at the same time that he, being the executor, was granted probate of the will of Frances Johnson, the mother of Rachael Johnson. Frances Johnson is nominated by her daughter to execute her 1709 will; John Harle had died by the time of the 1763 cause. Validity of the copy of the 1709 will was subject to a cause promoted by William Johnson, master mariner and Ann Pringle (otherwise Johnson) wife of Robert Pringle, cousin german against all and singular the next of kin. The court decided in their favour and granted them administration with the will annexed.
