### Form of citation

Material in the Sudan Archive is given a reference number, which is unique across the collections of papers. Usually it is not necessary to give the name of the person or organisation within which collection the item is found, although it may be convenient to do so.

The short form of citation should be GB-0033-SAD.*reference number*

Most printed references take the form: SAD.*reference number*.

To order items in the searchroom, use the collection reference code(s), derived by removing the repository code (GB-0033-), followed by the reference number. Citing the section of the finding aid is useful.

- G//S 628/1      Sword of `Ali Dinar (103 cm). Gold hilt with multi-coloured tassel and carved metal blade. Engraved leather scabbard with body strap. The blade is probably of Solingen manufacture while the hilt is probably of local Darfur manufacture. The blade is decorated with various inscriptions (some gilded), magic squares (*wafq*) and apotropaic formulae, one of which includes the Sultan's name and the date 1321 [1903/04]. One inscription reads "This is the sword whose name is k.b.h." (meaning not known). The Sultan's name and *tughra* are repeated on the hilt and quillion, with the date 1331 [1913] on the pommel. The name of Abd Al-Rashid is stamped on the scabbard chape
