## Introduction

*Collection title:* Durham Probate Records: pre-1858 original wills and inventories (1626-1650)

*Reference code:* GB-0033-DPR1/1

*Dates of creation:* 1626-1650

*Extent:* 7 metres

*Repository:* Durham University Library, Archives and Special Collections

*Creator:* The Spiritual Chancellors to the bishops of Durham (through their Registrars)

*Language of material:* English, with some Latin

## Contents

Original wills, inventories, accounts and associated documents, proved by the registrars to the bishops of Durham. See main DPR1 catalogue for further details on these records. As well as wills proved within the registry, this series also includes inventories and some other associated documents for those who died intestate, where administration was granted (although the actual administration bonds are stored within the separate DPR1/3 series).

## Arrangement

The entries within this list are arranged in the same order as the original documents, viz documents for every will proved (or administration granted) within a single year are stored together. Within each year, the documents are in name order. This arrangement is reflected within the reference codes, but note that in a few cases documents were misfiled prior to 2006 and so are lettered or numbered out of sequence.

For pre-1752 wills, note that this is normally an 'old style' year, running from 25th March in the year stated until 24th March of the following year; however, the yearly bundling of wills was not entirely consistent in this respect. Where it can be established with some confidence (for instance, from the date of an accompanying bond or an endorsement relating to the executors' oaths), the precise date of probate or administration is stated within this list. In other cases, however, you may need to check a year each side of the actual year of probate, especially for earlier material (see also under Finding aids below).

## Accession details

See main DPR1 catalogue.

## Conditions of access

Open for consultation.

## Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail [PG.Library@durham.ac.uk](mailto:PG.Library@durham.ac.uk)) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

## Finding aids

This list incorporates all the public information from the North East Inheritance database relating to the original wills and inventories etc, but only includes sparse references to the related records within other series of the Durham Probate Records (chiefly registered copies

in DPR1/2 and probate bonds in DPR1/3). The online database at <http://familyrecords.dur.ac.uk/nei/data/> will generally be found more helpful for research using the probate records, as it lists together records from multiple series relating to the same deceased person, and can be searched by person, place, occupation and document type as well as dates of probate and of documents. All the data within this catalogue is made available through the online database.

For links to the lists for other parts of the series of original wills (DPRI/1), see the collection level description, or use these links for the previous list and next list.

### Form of citation

The form of citation should use the code GB-0033-DPR, or the collection name Durham Probate Records, followed by the full *reference code* shown within the list below.

To order items in the searchroom, use the full reference number shown. Note that in this list, the references are shown as “DPRI/1/...”, rather than “DPR1/1/...” as in the higher-level Durham Probate Records catalogues (roman numeral I rather than arabic 1): the difference is immaterial.

### Bibliography

Several of these wills and inventories have been published, chiefly in volumes of the Surtees Society. Full references, with links to online texts where available, are in the Useful texts section of the North East Inheritance project pages.

## DPRI/1/1626/H5

Jane Hebsonne, wife of Anthony Hebsonne, widow, of parish of Gaite-side (Gateside) in the countie of Durham [Gateshead, County Durham]; also spelt Hebson  
 Hebsonne died of the plague, and her inventory also includes the funeral expenses for seven (unnamed) persons and the cleansing of two houses. The commission concerns not only Jane Hebsonne's estate, but also the tuition of four of her grandchildren, all legatees of her will. It is clear from this commission that between the making of the will (22 October 1625) and the execution of the commission (28 August 1626) Hebsonne's daughter Elizabeth and her husband Robert Nicholson had both died, and probably another of her daughters, Emote Burnet, as well. Probate records for these persons do not survive in the Durham diocese records series. The granting of the tuition of one of Hebsonne's grandchildren to two of her other grandchildren is unusual, and may indicate that others among her brother John Chambers, her widowed sister Elizabeth Chambers, her widowed sister Margaret Hesbonne and her three children were also among the dead.
