Introduction

Collection title: Durham Probate Records: pre-1858 original wills and inventories (1841-1850)

Reference code: GB-0033-DPR1/1

Dates of creation: 1841-1850

Extent: 7 metres

Repository: Durham University Library, Archives and Special Collections

Creator: The Spiritual Chancellors to the bishops of Durham (through their Registrars)

Language of material: English, with some Latin

Contents

Original wills, inventories, accounts and associated documents, proved by the registrars to the bishops of Durham. See main DPR1 catalogue for further details on these records. As well as wills proved within the registry, this series also includes inventories and some other associated documents for those who died intestate, where administration was granted (although the actual administration bonds are stored within the separate DPR1/3 series).

Arrangement

The entries within this list are arranged in the same order as the original documents, viz documents for every will proved (or administration granted) within a single year are stored together. Within each year, the documents are in name order. This arrangement is reflected within the reference codes, but note that in a few cases documents were misfiled prior to 2006 and so are lettered or numbered out of sequence.

Where it can be established with some confidence (for instance, from the date of an accompanying bond or an endorsement relating to the executors' oaths), the precise date of probate or administration is stated within this list.

Accession details

See main DPR1 catalogue.

Conditions of access

Open for consultation.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Finding aids

This list incorporates all the public information from the North East Inheritance database relating to the original wills and inventories etc, but only includes sparse references to the related records within other series of the Durham Probate Records (chiefly registered copies in DPR1/2 and probate bonds in DPR1/3). The online database at <http://familyrecords.dur.ac.uk/nei/data/> will generally be found more helpful for research using the probate records, as it lists together records from multiple series relating to the same deceased person, and can be searched by person, place, occupation and document

type as well as dates of probate and of documents. All the data within this catalogue is made available through the online database.

For links to the lists for other parts of the series of original wills (DPRI/1), see the collection level description, or use these links for the previous list and next list.

Form of citation

The form of citation should use the code GB-0033-DPR, or the collection name Durham Probate Records, followed by the full *reference code* shown within the list below.

To order items in the searchroom, use the full reference number shown. Note that in this list, the references are shown as “DPRI/1/...”, rather than “DPR1/1/...” as in the higher-level Durham Probate Records catalogues (roman numeral I rather than arabic 1): the difference is immaterial.

Bibliography

For a bibliography of Useful texts relating to these and other probate records, with links to online full text where available, see the North East Inheritance project pages.

Mary CROSBY, widow, of town and County of Newcastle upon Tyne [Newcastle upon Tyne, Northumberland]. Died 13 January 1842

Solicitors first believed that their client Mary Crosby had died intestate. Therefore they requested letters of administration be granted to Dorothy Gothard, the only child and next of kin of the testatrix, on 22 February 1842: these letters were not delivered being either lost or destroyed. In the meantime Dorothy Gothard died and one of her executors informed the solicitors that he had himself executed a will for Mary Crosby. Administration was therefore granted with will annexed to George William Cram.
